

Accessories for operating tables

Accessories for Operating Tables

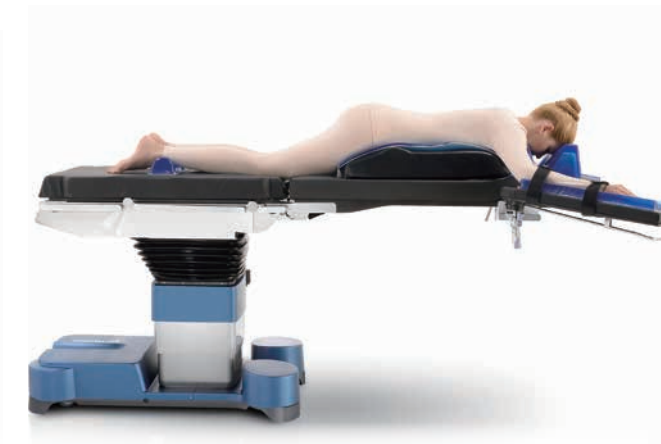

Accessories for operating tables from Mindray are characterised by these functionality, flexibility and high reliability. Developed in close collaboration with end users, the accessories fulfill all kinds of surgery positioning demands. They place the patients in an optimum way that offer benefits both for surgeons and patients.

We use high quality stainless steel materials in our operating tables and accessories. In order to get the surgeons access to C arm, all the pads or plates are radiolucent for X-ray check.

To avoid discomfort in sensitive areas of the patients, we provide gel material pads for patient positioning which are similar as human tissue.

HyBase 8300/8500

Electro-Hydraulic Operating Table

Engineered for increasingly complex surgical scenes, HyBase 8300/8500 comes with extreme weight capacity up to 460 kg guaranteeing highest safety and stability in any position. With longitudinal slide up to 480 mm, it is ideally suitable for cardiovascular surgery with C-arm. The modular design tabletop enables it to be tailored for various surgical discipline needs.

- Longitudinal slide up to 480 mm for free access to C-arm
- Extreme weight load capacity of 460 kg with highest safety and stability
- Modular design tabletop tailored for various surgical discipline needs
- Intelligent anti-collision system to avoid table components collision during movement
- Multi-layer decompression pad with waterproof and seamless design
- 575 mm lowest table position for Neurosurgery
- IR wireless remote control system for free movements in OR

HyBase 6100

Electro-Hydraulic Operating Table

Providing a better clinical use's scenario, HyBase 6100 is designed with a much lower table height of 498mm specially for neurosurgery and minimally invasive surgery, a more user friendly base cover, as well as a more convenient wireless remote control system. Moreover, with longitudinal slide up to 320 mm, the table is ideally suitable for cardiovascular surgery or spinal surgery with C-arm. All in all, HyBase 6100 maximizes the flexibility of operating table's versatility.

- Longitudinal slide up to 320 mm for free access to C-arm
- Max. lifting capacity up to 380kg with highest safety and stability
- Max. safe working load 275kg in normal position
- Multi-layer decompression pad with waterproof and seamless design
- 498 mm lowest table position for Neurosurgery and Minimally Invasive Surgery
- Wireless remote control system
- Foot pump Manual Override System

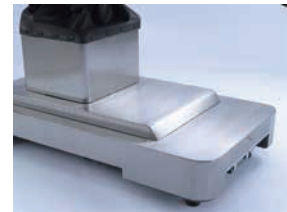

HyBase 3000

Electro-Hydraulic Operating Table

Proper annotation of "cost-effective". with most acceptable price, gaining the most functional Electro-hydraulic table. No matter what principle surgery was. it can always find a way to meet your requirement.

Foot break provides Maximum safety and easy use.

Battery power can support 50-80 operations.
Backup control keys in case of hand control failure.
Optional stainless steel cover.

- Multi-layer decompression pad with waterproof and seamless design
- Longitudinal slide up to 300 mm for free access to C-arm
- Max. lifting capacity up to 230kg
- Safe working load up to 185kg in normal position
- Battery power for about one week time
- Mechanical brake system for optimum stability
- Return to original position with one button
- Flex & Reflex position with one button
- Radiolucent table plate for free C-arm access
- Three control panels including remote panel, backup control & foot switch

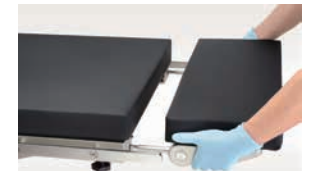

UniBase 30

Electro-Hydraulic Operating Table

During the surgery, a good operating table is the cornerstone of success. Engineered for increasingly complex surgical scenes, UniBase 30 needs least effort and time to position the patient in a safe, comfortable and efficient way, providing an economic solution without straining on your hospital's budget.

Versatile & Ergonomic Design

Detachable Head Plate

Adjustable Body Elevator (optional)

Pedal Floor Lock

- Weight capacity of 185 Kg in normal position
- UniBase30, simple good operating table:
- Longitudinal shift (optional) with 300mm
- Adjustment body elevator (optional) with 120mm
- Battery power for about one week time
- Mechanical brake system for optimum stability
- Detachable & split leg plate for lithotomy position

General Accessories

The Mindray table accessory portfolio provides optimal patient positioning and ideal working conditions for the medical staff. With robust design, ease-to-use and ergonomic functionality, Mindray offers standard table accessories that meets the requirements of nearly every surgical discipline.

General Accessories

0092-30-102657

Light quadrate clamp

Accessory Name:
Universal clamp (Light, one-piece, quadrate)

Application:
To attach to the side rail for connecting accessories with the table

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

0092-30-102655

Heavy quadrate clamp

Accessory Name:
Universal clamp (Heavy, one-piece, quadrate)

Application:
To attach to the side rail for connecting accessories with the table

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

0092-30-102658

Light radial clamp

Accessory Name:
Universal clamp (Light, one-piece, radial)

Application:
To attach to the side rail for connecting accessories with the table

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

General Accessories

Heavy radial clamp

Accessory Name:

Universal clamp (Heavy, one-piece, radial)

Application:

To attach to the side rail for connecting accessories with the table

0092-30-102656

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

General Accessories

Light Ana. frame with clamp

Accessory Name:

Anesthesia Frame, one-piece with light quadrate clamp

Application:

To hang the anesthesia screen during the surgery

0092-30-102645

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Strap clamps, a pair

Accessory Name:

Strap clamps, a pair

Application:

Can fix the body strap at a specified location on the side rail

115-038243-00

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

U-Shaped Ana. frame w/ clamps

Accessory Name:

"U" shape Anesthesia Frame with clamps

Application:

To hang the anesthesia screen during the surgery

115-005689-00

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase

Infusion holder with clamp

Accessory Name:

Infusion pole with one piece of heavy radial clamp

Application:

To hang the infusion bag in the procedure

0092-30-102643

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Heavy Ana. frame with clamp

Accessory Name:

Anesthesia Frame, "L" shape design with two adjustable tubes, one-piece with clamp

Application:

To hang the anesthesia screen during the surgery

0092-30-102654

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

General Accessories

Light arm board with clamp

Accessory Name:

Arm board with a rotation function in a horizontal position. One piece, with an integrated clamp, a pad and two pieces of fastening belt

Application:

To support and fasten the arm of the patient to avoid unexpected moving

0092-30-102646

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

General Accessories

Double arm board with clamp

Accessory Name:

Double layer arm support with one piece of heavy radial clamp for lateral position, with the pad

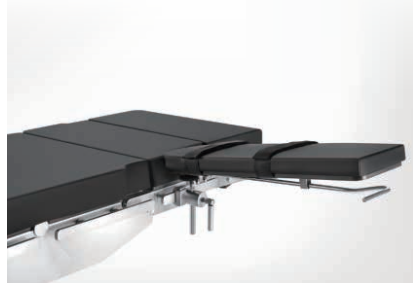

Application:

To support and fasten both of the arms of the patient as a lateral position to avoid unexpected movement

115-005693-00

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

Heavy arm board (PU/MFP) with clamp

Accessory Name:

Arm board with an up and down and a rotation function. One piece, with one heavy radial universal clamp, a pad and two pieces of fastening belt (SFC/PU)

Application:

To support and fasten the arm of the patient to avoid unexpected moving

115-016721-00 0092-30-102634

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

Arm board for lateral position w/ clamp

Accessory Name:

Lateral position arm support with onepiece of radial universal clamp, with the pad, one-piece

Application:

To support and fasten the upper arm of the patient in lateral position

0092-30-102648

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase
- 30 UniBase

Carbon fiber arm board, a pair

Accessory Name:

Carbon fibre arm board. A pair.

Application:

A carbon fibre arm board which includes a memorised foam pad. This can work with the 1180 cardiac operating plate which provides support for the patient's upper extremities in a supine position

115-030153-00

Compatible with:

- 8500/8300 HyBase

Arm posturing device

Accessory Name:

Arm posturing device

Application:

During surgeries, it is used to allow support for patient's arm to effectively protect patient's brachial nerves

115-038996-00

Compatible with:

- 8500/8300 HyBase
- 6100 HyBase
- 3000 HyBase

General Accessories

Suspended arm strap

Accessory Name:

Suspended arm strap

Application:

To attach to anesthesia frame for hanging the hand of the patient

115-007051-00

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

General Accessories

Heavy body support with clamp, pubis/sacrum

Accessory Name:

Heavy body support with clamp, pubis
Heavy body support with clamp, sacrum

Application:

To support the body of the patient for avoiding unexpected movement

0092-30-102669 0092-30-102638

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Wristlet with clamp

Accessory Name:

Wristlet with one-piece of quadrate universal clamp

Application:

To attach to the side rail for fastening the hand of the patient

115-007053-00

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Light body support w/ clamps, a pair

Accessory Name:

Two pieces of body support with a pair of quadrate universal clamps and the pad

Application:

To support the body of the patient for avoiding unexpected movement

0092-30-102650

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Body strap

Accessory Name:

Body strap, one-piece

Application:

To fasten the body of the patient to the table during the surgery

0092-30-102640

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Heavy shoulder support with clamp, left/right

Accessory Name:

Left/right shoulder support with pad (one piece, Heavy version with one piece of heavy quadrateuniversal clamp and pad)

Application:

To support the shoulder of the patient for avoiding unexpected movement

0092-30-102637 0092-30-102671

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

General Accessories

Light shoulder support w/ clamps, a pair
Accessory Name:

Shoulder support (left and right, pair with quadrate universal clamps and pad)

Application:
 To support the shoulder of the patient for avoiding unexpected movement

0092-30-102649

Compatible with:

General Accessories

Bow frame for spine operation
Foam head block stand for bow frame(optional)
Pad set for bow frame,a pair

Accessory Name:
 Bow frame for spine operation,Foam head block (optional), Pad set for bow frame,a pair(optional)

Application:
 Bow frame is adjustable for length and width according to different patients.
 Foam head block support the head in prone position
 Pad set give a comfortable support for the chest.

115-052219-00 / 115-053656-00 / 115-053654-00

Compatible with:

Cassette fixer with clamp
Accessory Name:
 X-ray cassette fixer (compatible with multi-size)

Application:
 To fix the X-ray cassette under the table

0092-30-102641

Compatible with:

Bow frame cart
Accessory Name:
 Bow frame cart, four universal castors

Application:
 It is convenient for the bow frame to store and move

115-052221-00

Compatible with:

Pad for intervertebral disc operations
Accessory Name:
 Intervertebral disc operation pad (Memorise foam, one piece)

Application:
 To support the body in intervertebral operating position

0092-30-102639

Compatible with:

Disposable covers for bow frame(6 pcs)
Accessory Name:
 covers for bow frame,disposable

Application:
 To prevent the pad getting dirty during spine operation

115-052223-00

Compatible with:

General Accessories

115-033429-00

Side rail extension

Accessory Name:

Side rail extension

Application:

Can extend the side rail toward the two ends of the operating table, to provide more space for installation of other accessories, such as leg support and foot plate

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-039082-00

Side rail extension

Accessory Name:

Side rail extension (HySRE-2)

Application:

Can extend the side rail towards the two sides of the operating table, to provide more space for installation of other accessories

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-030814-00

Table width extender with clamps, a pair

Accessory Name:

Table width extender with clamps, a pair

Application:

During surgeries, it is used to widen the operating table top and provide comfortable lying for larger-sized patients

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

Head, Back and Leg Accessories

Modular design table top is tailored for various surgical discipline needs, which also can low down the cost of the hospital as they only need to buy the specific module for more surgeries not one more table.

Head Accessories

Head plate
Head plate, CF
Accessory Name:

Head plate, single-joint, carbon fiber (optional), with special foam core pad.

Application:

During surgeries, it is used to provide support to the patient's head

Compatible with:

8500/8300
HyBase

115-028574-00 115-028576-00

2-Joint head plate
2-Joint head plate, CF

Accessory Name:

Head plate, dual-joint, carbon fiber (optional), with special foam core pad

Application:

During surgeries, it is used to provide support to the patient's head with a double-joint design

Compatible with:

8500/8300
HyBase

115-028703-00 115-028705-00

Back plate for shoulder operation with helmet

Accessory Name:

Demountable shoulder support module with helmet to support patient's head.

Application:

Provide a stable support for the shoulder operation by beach-chair position

Compatible with:

8300/8500
HyBase

115-052229-00

Head Accessories

Head rest, Type 2

Accessory Name:

Adjustable horseshoe-shaped head rest with two installation bars

Application:

To support the head of the patient providing a stable support for Neurosurgery operation. You should select the adaptor for head position simultaneously

115-012835-00

Compatible with:

Head Accessories

Universal adaptor for head position

Accessory Name:

Universal adaptor for head position

Application:

To connect the adjustable horseshoe, headrest, headrest system.

115-034319-00

Compatible with:

Head rest

Accessory Name:

Head rest, new memorized foam pad

Application:

A solution for supporting the head safely and comfortably. You should select the adaptor for head position simultaneously

115-059309-00

Compatible with:

Ophthalmic operating plate

Accessory Name:

Ophthalmic operating head plate (compatible with the adaptor of head position)

Application:

To support the head of the patient and support the arm of the surgeon during the surgery

115-007045-00

Compatible with:

Adaptor for head position

Accessory Name:

Neurosurgical head support adapter

Application:

To connect the adjustable horseshoe, headrest, headrest system.

0092-30-102642

Compatible with:

Wrist Support

Accessory Name:

Wrist Support, foam pad, used with head rest

Application:

Supporting the wrist stably to reduce the surgeon's fatigue

115-007045-00

Compatible with:

Head Accessories

Guiding roller for cervix traction

Accessory Name:

Guiding roller for cervix traction,used with head rest

Application:

It is used for the cervical vertebra traction o of the spine operation

Compatible with:

DJ15-0101-101

Head Accessories

Adult horseshoe headrest w.Ext Pedia horseshoe headrest w.Ext

Accessory Name:

Adult horseshoe headrest w.Ext
Pedia horseshoe headrest w.Ext

Application:

A solution for supporting the head more safely and comfortably,used with headrest system

Compatible with:

DJ15-0101-301 DJ15-0101-301

Aluminum headrest system

Accessory Name:

Aluminum headrest system
(Including base unit, swivel adaptor and skull clamp;
not including skull pins)

Application:

For supine, prone, lateral positions, please select the adaptor for head position(PN:0092-30-102642 or 115-034319-00); For sitting positions, please select crossbar adaptor (PN: DJ15-0101-101); only allow to sale with the table together as a package

Compatible with:

DJ15-0101-001

Crossbar adaptor with clamps

Accessory Name:

Crossbar adaptor with clamps for headrest system in sitting positions

Application:

Only allow to sale with the table together as a package;

Compatible with:

DJ15-0101-101

Radiolucent headrest system

Accessory Name:

Radiolucent headrest system
(Including base unit, swivel adaptor, transitional member and skull clamp; not including skull pins)

Application:

Radiolucent for C-arm access, only allow to sale with the table together as a package

Compatible with:

DJ15-0101-002

Titanium skull pin, pediatric (3pcs); SS skull pins, pediatric (3 pcs) Titanium skull pin, adult (3pcs); SS skull pins, adult(3 pcs)

Accessory Name:

Titanium skull pin, pediatric (3pcs);
Stainless steel skull pins, pediatric(3 pcs)
Titanium skull pin, adult(3pcs);
Stainless steel skull pins, adult(3 pcs)

Application:

Only allow to sale with the table together as a package;

Compatible with:

DJ15-0101-201 DJ15-0101-202
DJ15-0101-203 DJ15-0101-204

Leg Accessories

**1-joint leg plate, a pair ;
1-joint leg plate, a pair, CF**

Accessory Name:

Leg plate, single-joint, carbon fiber (optional), with special foam core pad, a pair

Application:

During surgeries, it is used to provide support to the patient's leg

Compatible with:

115-028580-00 115-028578-00

**2-joint leg plate, a pair ;
2-joint leg plate, a pair, CF**

Accessory Name:

Leg plate, dual-joint abduction, carbon fiber (optional), with special foam core pad, a pair

Application:

To support the legs of the patient during the surgery. During surgeries, it is used to provide support to the patient's leg. A double-joint design, helps doctors get closer to the surgical site.

Compatible with:

115-028582-00 115-028584-00

4-parts leg plate; 4-parts leg plate, CF

Accessory Name:

Leg plate, 4 sections, with special foam core pad carbon fiber (optional), a pair

Application:

Can achieve the abductive function of normal leg plates and horizontal abductive function of 2-joint leg plates; the second joint leg plate can be folded upward and downward, abducted and can extend toward the leg end, and is detachable; include a mattress made of memory foam. It is able to assist in achieving kneeling position, lithotomy position and supine position.

Compatible with:

115-033426-00 115-038559-00

Leg Accessories

**One-section leg plate, hook ver;
One-section leg plate, hook, CF**

Accessory Name:

One-section leg plate, hook ver
One-section leg plate, hook, CF

Application:

During surgeries, it is an one-section plate used to support the patient's legs.

Compatible with:

115-035792-00 115-037739-00

**One-section leg plate,
PU/memory foam pad**

Accessory Name:

One section leg plate for PU or SFC (Special Form Core) mattress

Application:

To support the leg with one-section plate during the surgery

Compatible with:

115-005683-00 115-005685-00

Transfer board, hook version

Accessory Name:

Transfer board, hook version lithotomy position.

Application:

During surgeries, it is used to temporarily support the patient's lower extremities when positioning the patient or transferring the patient, and to optimize the pre-operation and post-operation workflows at lithotomy position.

Compatible with:

115-033425-00

Leg Accessories

115-012841-00

Thigh holder with clamps, a pair

Accessory Name:

Fixation for femur, a pair, with two radial universal clamps

Application:

To support the femur of the patient during the surgery

Compatible with:

Leg Accessories

115-033430-00

Leg restraint cuff, thigh, a pair

Accessory Name:

Leg restraint cuff, thigh, a pair

Application:

Used to secure the patient's thigh.

Compatible with:

115-012843-00

Shank holder with clamps, a pair

Accessory Name:

Fixation for lower leg, a pair, with two radial universal clamps

Application:

To support the lower leg of the patient during the surgery

Compatible with:

115-033431-00

Leg restraint cuff, shank, a pair

Accessory Name:

Leg restraint cuff, shank, a pair

Application:

Used to secure the patient's shank.

Compatible with:

0092-30-102636 0092-30-102667

Foot plate with clamp, left/right

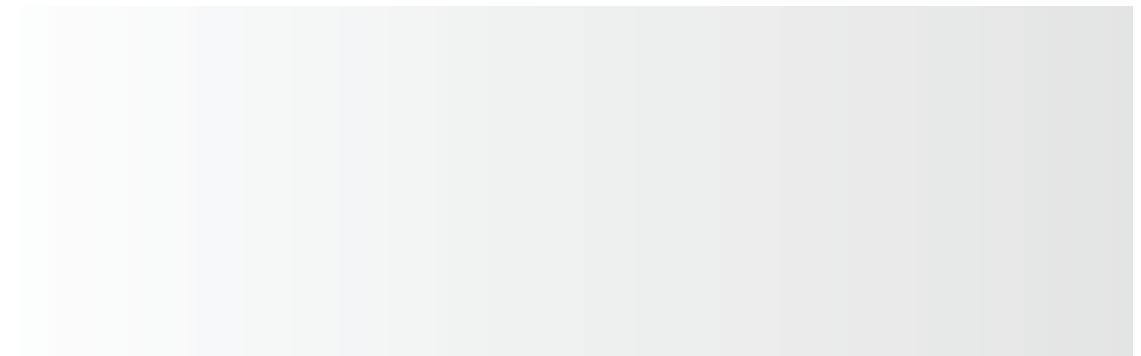

Accessory Name:

Left/right foot support with one piece of heavy quadrate universal clamp and pad

Application:

To support the foot of the patient for avoiding unexpected movement

Compatible with:

Back Accessories

Short upper back plate ; Short upper back plate, CF

Accessory Name:

Short upper back plate
Short upper back plate, CF

Application:

During Surgeries, provide support to the patient's back

Compatible with:

115-033428-00 115-038564-00

Extension plate,w/ MFP,CF

Accessory Name:

Extension plate, carbon fiber (optional), with gynaecological cutout, with special foam core pad, length of 250mm.

Application:

With gynecological cutout, can extend the head end or the foot end of the operating table top up to 250mm, to provide more perspective space or more standing space for doctors. Applicable to trauma, spine, gynecology, or urology. Includes a optional memorised foam pad.

Compatible with:

115-029430-00 115-029432-00

Upper back plate; Upper back plate, CF

Accessory Name:

Upper back plate, carbon fiber (optional),, with special foam core pad.

Application:

During surgeries, provides support to the patient's back.

Compatible with:

115-028586-00 115-028588-00

Back Accessories

Cardiac operating plate,CF

Accessory Name:

Cardiac operating plate, carbon fiber, with special foam core pad, length of 1,180mm.

Application:

Cardiac operating plate, can provide 360° X-ray radiolucency, extend the foot end of the table top for 1180mm, allows for cardiovascular surgeries and spine surgeries. Includes a memorised foam pad and stand bars.

Compatible with:

115-029434-00

Accessory adaptor,CF

Accessory Name:

Accessory adaptor for Cardiac Operating Plate, carbon fibre, with side rails.

Application:

Provide an additional side rail for the 1180 cardiac operating plate (EU Standard), can be used to install accessories such as arm boards and shoulder supports.

Compatible with:

115-030151-00

Carbon fiber arm board, a pair

Accessory Name:

Carbon fiber arm board. A pair.

Application:

A carbon fiber arm board which includes a memorised foam pad. This can work with the 1180 cardiac operating plate which provides support for the patient's upper extremities in a supine position

Compatible with:

115-030153-00

Accessories for Gynecology & Urology

For Gynecology and Urology Surgery, Mindray provide a better workflow design and ergonomic working space for the patient positioning. The lightweight transfer board will help a lot after positioning the leg with less efforts to remove it. The leg plate folded design helps avoiding the disassembly of the leg plate. And the u shape design on base cover forms a larger space for surgeons while doing the operations. The cutout of the backplate also enable the patient reverse position for Gynecology and Urology Surgery.

Accessories for Gynecology & Urology

115-062765-00

Stirrup (HyStirrup-3), a pair

Accessory Name:

Leg support (Stirrup type), a pair, with clamp

Application:

To support and fasten the leg of the patient

Compatible with:

0092-30-102635

Heavy leg support with clamp

Accessory Name:

One-piece leg support (heavy version). Includes one heavy radial universal clamp, a pad and one piece of fastening belt

Application:

To support and fasten the patient's leg

Compatible with:

0092-30-102647

Light leg support with clamps, a pair

Accessory Name:

Light leg support. A pair with radial universal clamps

Application:

To support and fasten the patient's leg

Compatible with:

Accessories for Gynecology & Urology

Stirrup (HyStirrup-2)

Accessory Name:

Leg support (Stirrup type), a pair, with clamp without lift assisted

Application:

To support and fasten the patient's leg

Compatible with:

115-062768-00

Leg holder with loops, with clamps, a pair

Accessory Name:

Leg Holders. A pair with loops and radial universal clamps.

Application:

To support and fasten the patient's leg.

Compatible with:

115-007043-00

Rectal positioning device

Accessory Name:

Rectal positioning device

Application:

To support the coxa and knees of the patient in rectal surgery

Compatible with:

115-007049-00

Accessories for Gynecology & Urology

Drainage bowl for Gynecology & Urology

Accessory Name:

Drainage bowl for Gynecology & Urology

Application:

To hang the infusion bag in the procedure

Compatible with:

115-013018-00

Drainage bowl with clamp, universal

Accessory Name:

Universal drainage bowl

Application:

To drain the liquid in lithotomy position

Compatible with:

115-034318-00

Drainage bowl, HyBase 6100

Accessory Name:

Drainage bowl for Gynecology & Urology

Application:

To drain the liquid in lithotomy position

Compatible with:

115-005697-00

Accessories for Gynecology & Urology

115-052205-00

Transfer board

Accessory Name:
Transfer board,light leg plate

Application:
Support the legs temporarily during lithotomy position

Compatible with:

115-033425-00

Transfer board, hook version

Accessory Name:
Transfer board, hook version lithotomy position.

Application:
During surgeries, it is used to temporarily support the patient's lower extremities when positioning the patient or transferring the patient, and to optimize the pre-operation and post-operation workflows at lithotomy position.

Compatible with:

115-047824-00

Lateral positioner

Accessory Name:
Lateral positioner,foam pad

Application:
Support the legs during lateral position

Compatible with:

Orthopedic Accessories

Orthopedics Extension

Tibia Extension Assembly

Lateral Femoral Extension Assembly

115-066779-00 115-066779-00

Ortho extension w/ cart,CF,basic
Ortho extension w/ cart,CF,comfort

Accessory Name:

Ortho extension device, carbon ber, including the cart

Application:

During the orthopedic traction surgery, it is used to pull the femur to meet the need of x-rays; the device is made of highly-transmissible carbon ber materials to improve image qualities.

Compatible with:

8500/8300
HyBase

115-066781-00 115-066781-00

Ortho extension w/ cart,IV ,basic
Ortho extension w/ cart,VI ,comfort

Accessory Name:

Ortho extension device, hook version, stainless steel, including the cart

Application:

To provide leg traction during orthopedic surgery

Compatible with:

8500/8300
HyBase

Tibia & fibula extension assembly

Accessory Name:
 Tibia extension assembly

Application:
 To provide tibial and fibula traction

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-007055-00

Lateral femur extension assembly

Accessory Name:
 Lateral femoral extension assembly, used with Ortho extension device

Application:
 To provide femur traction in lateral position

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-007057-00

Orthopedic Accessories

Leg holder for Ortho extension device, SS
Leg holder for Ortho extension device, CF

Accessory Name:
 Support the leg, CF (optional), used with Ortho extension device

Application:
 Support the injured leg during the orthopedic operation

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-047827-00 / 115-047828-00

Pelvis width extender, a pair

Accessory Name:
 Triangle support board, 2 pieces.

Application:
 It is used to widen the pelvis plate.

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-011817-00

Upper arm extension device with clamps

Accessory Name:
 Upper arm extension device

Application:
 During surgeries, it is used to fix and pull patient's forearms; consists of auxillary pillar, elbow joint pillar, palm & finger fixer and tractor

Compatible with:

8500/8300 HyBase 6100 HyBase 3000 HyBase 30 UniBase

115-033422-00

Orthopedic Accessories

Forearm extension device with clamps

Accessory Name:

Forearm arm extension device

Application:

During surgeries, it is used to fix and pull patient's forearms; consists of auxillary pillar, elbow joint pillar, palm & finger fixer and tractor

Compatible with:

115-033421-00

Upper arm operating table

Accessory Name:

Upper arm operating table

Application:

To support the upper arm of the patient.

Compatible with:

115-033415-00

Arm operating table

Accessory Name:

Arm operating table

Application:

To support the arm of the patient and the hand of the surgeon

Compatible with:

115-007047-00

Orthopedic Accessories

Back plate for shoulder operation with helmet Body strap for shoulder operation

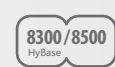

Accessory Name:

Demountable shoulder support module with helmet to support patient's head
Body strap(optional) used with back plate for shoulder operation

Application:

Provide a stable support for the shoulder operation by beach-chair position

Compatible with:

115-052229-00 / 115-059315-00

Arthroscopic leg holder with clamp

Accessory Name:

Arthroscopic leg holder with clamp

Application:

To fasten and support the knee of the patient

Compatible with:

115-033413-00

Meniscus positioning device with clamp

Accessory Name:

Meniscus positioning device with clamp

Application:

To provide support for patient's thigh or foot during knee joint surgeries

Compatible with:

115-033416-00

Accessories for Controlling and Easier Application
